LOCAL AND MISCELLANEOUS.

—Oil market closed yesterday 531.

—Chestnut buds are bursting.

—Don't forget to keep an eye out for burglars.

—Pay your taxes before October 8. Don't neglect it.

—Editor White of the News, Tidout, was a caller Monday.

—Dr. Nason is building a new barn on the rear end of the Sloan property.

—Chesnutting accidents are already receiving attention in neighboring exchanges.

—The fall overcoat, or the one worn thin by last winter's use, is in full bloom.

—Mr. and Mrs. Chas. Kirchartz are visiting friends at Mr. K's old home, Beaver Falls.

—Dr. Morrow reports the arrival of a fine daughter at Mr. J. A. Small's, Nebraska, Saturday morning last.

—The season for legally killing pheasants opens Saturday of this week. They are not "overly plenty," so they say.

—The borough schools are in training for Columbus Day, and expect to have a good celebration of that important event.

—About nine out of ten of our exchanges have, in the past two weeks, started their local columns with the announcement that "oysters are in the soup."

—Mr. Joseph Elder of Clarington passed through town on Monday evening on the way home from a visit with his brother-in-law, Dr. Sining, of Titusville.

—County fairs in this latitude have about all had their day for this season, and all have done fairly well, the weather having been in the main rather favorable.

—Judge Noyes, of Warren county, is presiding at court this week for Judge Rayburn. He has made a very good impression upon the members of the Bar.—Kittanning Free Press.

A good Judge is popular wherever he goes.

—Keep it in mind, Republicans! Saturday, October 8th, is the last day upon which taxes can be paid to entitle you to a vote in November. No Republican will think of losing his vote this fall. By all means see to it at once.

—Mr. and Mrs. Alexander Gordon, of Elkhart, Indiana, stopped here a few days with relatives and friends on their return from the great reunion at Washington. Their Tionesta friends are pleased to note the healthful appearance of both.

—Grove Bros. have only fairly begun drilling on the Kelly well at Oldtown, having been delayed in getting enough "conductor" to reach below the gravel. They are sailing along at good speed now and will finish in ten days or two weeks, barring accidents.

—They are coming, and the unpacking is in progress. We mean the new goods at Hopkins & Co's. Get around early and see them. Though there are oceans of them they'll not last long. The fine quality, elegant styles and low prices will hustle them off lively.

—The grading on the Hickory Valley railroad is entirely completed from Stowtown to the mouth of Ross Run, with exception of about 500 feet. No rails or ties have as yet been laid on the new grading, but will be shortly, most of the rails being on hand and more coming in daily.

—Of course, says an exchange, there's no place like home. Any place else you go people take your right measure, but at home your wife and family make allowance for you, and tolerate you in the belief that you are as big a man as old Mr. Atlas, who carried the world on his shoulders.

—Those who attended the G. A. R. national encampment at Washington last week from this section, have about all returned, and report the "greatest time on record" by all odds. Over 400,000 visitors were in the city, and in the grand parade upward of 85,000 were in line. Gen. Weisert, of Milwaukee, was elected Commander-in-Chief, and Indianapolis, Ind., was chosen as the place of meeting in 1893.

—Corn will be about a two thirds crop. This bit of information is ventured by a gentleman who has been through a corner of the agricultural district of this section. By the way, this joke (?) is too much cob bled to be silky, but, still, we have thought 'twould stand a b-eating. Shucks.

—There is scarcely any thing in the papers these days about cholera, an indication that the dread is about over and with the vigilance kept up a few weeks longer cold weather will do the rest. But that shouldn't keep people from cleaning up. There will be nothing wasted, even if cholera don't come.

—The U. S. weather crop bulletin for the past week gives the following as to Pennsylvania: "Rainfall above, temperature and sunshine below normal. Good week for farm work. Early sown wheat growing nicely; corn cutting general, crop short in many sections; winter apples falling badly."

—Mrs. Elizabeth Merrell, wife of Jacob Merrell, one of the first settlers of Jenks township, died at her home in this township, on the 18th inst., after a lingering illness. Her age was 77 years, and the family had been residents of that section for upward of 50 years, coming originally from near Philadelphia.

—The soldier boys of the 15th regiment, who have been on duty so long at Homestead have been relieved, their services being no longer needed. A happier set it would be hard to find, no doubt, and it is more than likely that before another "war breaks out" most of the present members will also be out and stay out. The 16th is still on duty.

—We don't know whether or not Bre'r Shick of the Clarion Jacksonian has tried it, but he warns his readers to look out for the man who advertises that on payment of fifty cents he will tell you how to make one cent postage stamps do the work of two cent stamps. If you send him your fifty cents you will receive the following answer by mail: "use two of them."

—Mr. Cleveland has at last recovered sufficient breath, since President Harrison's letter was published, to say to the Democracy he "accepts." Every important question is touched in the most gingerly manner, and those of the ex-President's friends who expect a strong document, a regular shoulder-hitter, as it were, will be greatly disappointed in this mere appeal for votes.

—Rev. McAninch was suddenly called away yesterday by the receipt of a telegram stating that his father, whose home is in Kansas, was dangerously ill. In consequence of his absence there will be no preaching in the Presbyterian church next Sabbath. One week from next Sabbath evening, however, Rev. J. T. Brennan will preach there. The congregation will bear in mind the appointment.

—Mr. P. T. Winters graduated from the Keeley institute and departed for his home in Titusville yesterday. He felt so grateful to the "good people of Tionesta, and to Dr. Siggins, who is a fine gentleman as well as a good doctor," as he expressed it, that he wished us to publicly thank them for the many kindnesses shown him. He left feeling like a new man, and with praises and thanksgivings on his lips.

—A number of our exchanges are saying that nominations for spring elections under the new ballot law, must be made sixty days before election which is erroneous. The law says: "Certificates of nomination and nomination papers for candidates for township and borough officers and school directors, shall be filed with the auditors of their respective townships and boroughs at least ten and seven days respectively before the day of election."

—About a month ago a steer intended for Butcher Jas. Butler, escaped from Alex. Thompson at a point near Ernest Sible's place, on German Hill. The critter had about 40 feet of rope attached to his horns, with a knot dragging on the ground. Up to the present time nothing whatever has been seen or heard of the missing animal, and there is scarcely any doubt but that the rope has become fastened and the steer perished from hunger ere this.

—An exchange relates the following, which is a matter of very frequent occurrence in every newspaper office: "A gentleman came into our office the other day and asked for a Brookville paper. We gave him the Democrat and the Republican and he scanned them both closely trying to find a card of a certain lawyer, but in vain. If the lawyer had had his card in the paper he might have profited by it. But some people can't see the benefit of advertising. A newspaper is a directory and every business man in the town should have an advertisement in his local paper, even if it only contains his name, address and his business. It will more than pay you some time."

—Squire Hoovler, on his Hunter Run farm, raised a fine crop of potatoes this year, both in quantity and quality. He has a few on exhibition at the postoffice, which show up about as nice as any you generally see in the potato line. Some of the largest and best varieties he raised from the seed. We don't know that Mr. H. cares to sell any great quantity of his product, but he will not experience much difficulty in getting rid of such stock.

—Secretary Harry has sent to the county commissioners throughout the State a copy of Attorney General Hensel's opinion of the correct form of the official ballot under the new election law, and a couple of sample ballots arranged in accordance therewith. The tickets are arranged under three heads: "Republican," "Democratic," and "By Nomination Papers," the prohibition candidates coming under the latter head. Another column is left blank for names not printed in the ballot.

—A change of proprietorship in the drug and grocery store of Siggins & Fones has taken place, Mr. Fones retiring, having disposed of his half interest to Dr. F. T. Nason, who adds much intelligent experience to the already large and successful business of this establishment. Mr. Fones will be retained as drug clerk, at least for the present, and that fact will be an assurance to the patrons that their every want will be carefully looked after. The new deal has our best wishes for success.

—It had been supposed that potato bugs had about run out in these dignities, but if a story told us about a recent discovery of the little striped pest is any indication that they'll be on hand for next year's crop, then order your Paris green right away. The item is to the effect that a short time ago J. C. Miller, who lives near Kelleysville, came across a green stock of potatoes which was literally covered, and Joe took the trouble to count them. One hill contained 571 bugs and another 491. All good fat healthy bugs, too.

—Thomas McCarty and Dennis Downey, of Maguduns, who have the contract of building the new road from Jamieson station to the Hunter run road, are progressing finely with their job, and expect to have it completed before bad weather sets in. The road starts at a point on Jamieson Run, about three quarters of a mile from the railroad, and goes over the hill at an easy grade, intersecting the Hunter Run road near Squire Hoovler's place, two miles from Tionesta station. It is intended to supply the road running parallel with the railroad between Tionesta and Jamieson stations, which has been vacated.

—Mr. W. W. Diamond came out with the other Kansas vets to take part in the big show at Washington last week, and took advantage of his visit east to spend a few days with old friends in this vicinity. Time don't seem to change William much, leastwise he's as good natured and full of plevanry as when a boy of 16. Kansas is having quite a boom this season; the crops are so large that the Alliance and Democratic calamity howlers are too busy harvesting their products to give proper attention to politics, and so the Republicans are going to scoop things in the old fashioned way, so Mr. D. intimates, and we guess its so, for one good season of crops generally paralyzes hard times croakers.

—Says the Blizard, truthfully: "When the newspapers cease the publication of cholera news with big headlines; when the doctors are silent and society gets down to its normal condition of conversational rest, it may be safely assumed that the great scare is over. The disease is rapidly abating in Europe; thanks to scientific and sanitary precautions, it has not obtained a foothold in the United States, and there is little reason to believe that the few sporadic cases, which may be developed here and there, will not be controlled. An eminent medical authority gives it as his opinion that more of the cholera victims die of fright than from other effects of the disease."

—The news from the White House as to the illness of Mrs. Harrison is not re-assuring it is painful to learn, and that the first lady of the land may at anytime be called away is among the possibilities. The sympathy of the American nation goes out to the President in his trying hour, while the illness of Mrs. Harrison throws a pall over the campaign, for what heart can the leader of the Republican hosts have for politics when the wife whose kind words and wise counsels have so often stood him in good stead, is lying at the threshold of death? But partisanship is forgotten, the voice of de- traction is hushed, the prayers of millions are to-day asking that the chief magistrate may be spared the impending blow.

—The Republican and the Philadelphia Weekly Press, the largest and best weekly in the State, for only \$1.75. Call and take advantage of this offer.

Again in the Tolls.

Monday morning Detective Charles Hall took Robert Stanford to Meadville to await the action of the November term of court. Stanford has a bad record. He has been in the penitentiary twice, and the indications point to another term for him. The first occasion was several years ago when he stole a horse from a Pleasantville man and sold it in Tidoute, and was shortly caught and sent "down the river."

The second time he has a local interest and took place about ten years since. He was charged with burglarizing the depot at Hickory, and was arrested and brought here by Detective Hill. At the corner of Franklin and Pine streets he broke loose and ran with the crowd at his heels. In the European hotel alley he was grappled by a bull dog and the Hon. J. P. Thomas. Detective Hill here took a hand in the trouble, and when Stanford got up out of the mud the nippers were on his wrists. It is likely that the charge of burglary will be preferred against Stanford, also, at Meadville in November.—Titusville Herald.

Many of our citizens will remember the above character, and circumstances of his conviction here for burglarizing the depot at West Hickory. Stanford had a partner in that scrape by the name of Weston. The hurlary took place in the summer of 1878, when Sheriff Randall was in office, and Prethoratory Shawkey occupied the Sheriff's house and kept an eye on the prisoners. They were determined to make their escape from the jail, and not less than half a dozen attempts were made, some of them very nearly successful. It was finally necessary for the Sheriff to keep the prisoners shackled. Both were convicted at the September sessions of that year, and "sent down" for two years and eight months.

Supt. Waller, of the Department of Public Instruction of this State, has issued a circular to directors, superintendents and teachers of public schools in regard to the celebration of Columbus Day, Oct. 21st, in a fitting manner in the schools. The circular says: This will not be regarded as a legal school holiday. The schools should open as usual. They may afterward unite in any of or all the exercises of the day. In addition to the exercises by the pupils, addresses by prominent citizens and choral and orchestral music will be appropriate. A uniform program has been announced by the Executive Committee of the National Educational Association. It will contain a song, set to a well known tune, an address to be declaimed and an ode to be recited, all prepared especially for the celebration, by some of the best of American writers. This program in a complete form will be sent to applicants who address Francis Bellamy, chairman, Boston, Mass., and will be published throughout the country.

A prominent feature of the day should be the planting of Columbus trees. Hardy, long lived trees are the most desirable. Where it is possible, let groves stand as memorials of the 400th Columbian Anniversary. No fall Arbor Day has compared in interest with this; let it be fully improved. It is hoped that where there is a celebration by the general public it will be arranged for the afternoon and that the schools may be recognized therein. The educational value of the day cannot be over estimated. The memories revived, the information gained, the ideals presented, the achievements considered, will all unite to extend the mental horizon, to stimulate thought and enoble character.

You are earnestly requested to observe the day, that the pupils of the schools of Pennsylvania may pay their homage to the hero, and to the spirit of enterprise commemorated. Let the day be observed everywhere throughout the State in such a spirit as to impress upon the minds of this Commonwealth lessons of patriotism and loyalty, love of home and country that will insure to future generations the privileges and blessings which we now enjoy and awaken gratitude to God and a deep and lasting reverence for America and American institutions.

The Tionesta photograph gallery will be open only on Wednesdays until further notice. On these days Mr. Sires will give his personal attention to the work and make the sittings himself. No better guarantee of satisfaction could be asked.

The Plait and the Stage. Rev. F. M. Shroat, Pastor United Brethren Church, Blue Mount, Kan., says: "I feel it my duty to tell what wonders Dr. King's New Discovery has done for me. My lungs were badly diseased, and my parishioners thought I could live only a few weeks. I took five bottles of Dr. King's New Discovery and am now well, gaining 25 lbs. in weight." Arthur Love, Manager Love's Funny Folks Comedians, writes: "After a thorough trial and convincing evidence, I am confident Dr. King's New Discovery for Consumption beats 'em all, and cures when everything else fails. The greatest kindness I can do my many thousands of friends is to urge them to try it." Free trial bottles at Proper & Doubt's. Regular sizes 50c. and \$1.00.

Kelleysville.

The Tionesta Lumber Co. are building a slash dam in Salmon Creek, below the saw mill, at or near the mouth of "the branch." The Company intend rafting their lumber at the mill and the dam will be used to raise the water to move the lumber.

Dr. Barber's house is under roof and will be ready for occupancy by October 1. The doctor has a neat office attached to his residence.

Halsey Graham, who was reported quite sick with typhoid fever, is much better. W. S. Johnson has sold his timber tract to some Marienville parties. It is rumored they will make considerable square timber out of the same. The tract is at the mouth of "six-mile."

The Tionesta Lumber Co. will cut and haul about 1,000,000 feet of hemlock round timber the coming winter. The timber is to be cut in log lengths.

Wm. Tobey has his new house up and ready for the finishing touches. Geo. Paul and Cora Wolf were married at Baltown on Tuesday last.

Candidates are showing up and the smoking is getting better. WILL WALKS.

Only one couple in 11,500 live to celebrate their golden wedding. John P. Zane, a prominent oil region figure, is dangerously ill at his home in Bradford.

The New York Press says: Cholera rilly attacks a cigarette smoker. It is rare to trust part of the work to the cigarette. Patrick Gilmore, the great musical director, died suddenly in St. Louis Saturday evening. He had just been officially notified of his appointment as the director of music at the World's Fair next year.

The fall election this year will occur on November 8th, the latest it can occur under the law, which fixes it the first Tuesday after the first Monday. The last presidential election which occurred on that date was 1864.

Lightning struck the opera house at St. Petersburg on Thursday evening last, setting it on fire, and the flames spread so rapidly that in a very short time twenty-five buildings in the best portion of the town were a mass of ruins.

If the ear is held in the middle of one of the ends while a blow is struck by another person at the opposite end, the timber can be tested by sound. Rotten or bad wood will convey the sound of the blow clearly and distinctly. Rotten or bad wood will destroy it.

An examination of the "penny and nickel in the slot" machines all over the country might solve the problem of the scarcity of money. When ten thousand pennies are found in a single machine, as was the case in one instance, the amount of money they contain can be better imagined than described.

An exchange gives this bit of sensible advice: In betting on election remember that when that bet is decided the cold winds of November will be blowing through your homes. Before putting your money up on a sure thing look into your coal bin, and examine the condition of your last winter's flannels and overcoat. You may decide to adopt the only course that is absolutely sure, which is to hang onto your money. This is no joke."

A rolling item gathers no moss. Some one having made the statement that "a wagon maker who had been dumb for years picked up a lub and spoke," this is the composite result: "Yes, and a blind carpenter on the same day reached out for his plane and saw; a deaf ranchman went out with his dog and herd; a noseless fisherman caught a barrel of herring and smelt; a deaf hatter was tenderly deposited on a pile of hair and felt, and a forty ton elephant inserted his trunk into a grate and flue."

There appears to be some doubt as to the ability of the Marquette Manufacturing company to turn out all the election booths necessary to supply the several counties of the state for the approaching November election. Over 10,000 of the 25,000 required are still to be manufactured, and the manager of the company says it will require steady work with no mishaps to complete the contract by November 1st. The state pays for the booths, annexes and guard rail, while the expenses of supplying ballot box, polling houses and extra large tables is borne by the county.

This month the new postal money orders will go into use. The system is such that there is little or no complication, and at the same time it is a good way to send money. A sheet calling for amounts from one cent to \$5, has been prepared, and which on payment of one cent and the amount to be sent, will be torn off about the same as an express order. There will be no writing on it by the postmaster, the sender enclosing it as a check or draft. The government guarantees its safe transportation. It is thought that the new system will be used extensively by senders of small amounts.

The old lady filled the bottles, but there was no peculiar wink to her eye. The boy who sold the cold tea had the wink, and it was the wink that the dry customers bought, for the bottles contained nothing but real, genuine cold tea. It was amusing to see the sly customers get into the stalls in groups and go against a bottle of that "cold tea." There was a sickly attempt at hilarity as they came away. It was one of the features of the fair to watch the "cold tea" parties assemble in stalls and under sheds and see them break up."

"I would rather trust that medicine than any doctor I know of," says Mrs. Hattie Mason, of Chilton, Carter Co., Mo., in speaking of Chamberlain's Colic, Cholera and Diarrhoea Remedy. This medicine can always be depended upon, even in the most severe and dangerous cases, both for children and adults. 25 and 50 cent bottles for sale by Siggins & Fones, druggists.

—Drunkennes, or the Liquor Habit, positively cured by administering Dr. Haines' Golden Specific. NOTICE IS HEREBY GIVEN THAT an application will be made to the Governor of Pennsylvania on the 4th day of October, A. D. 1892, by J. B. Hager, T. F. Ritchey, C. M. Whitman, S. D. I. Win, G. C. Brownell, J. T. Brennan, G. V. Howell, et al, under the Act of Assembly approved the 28th day of April, A. D. 1887, entitled "An Act to provide for the incorporation and regulation of certain corporations," and the supplements thereto, for
